

FRESENIUS MEDICAL CARE

January 2024

Dear Valued Customer:

Fresenius Medical Care is committed to attaining the best possible balance of cost and availability for the materials we purchase. Unfortunately, the economic environment this past year has continued to present many challenges with sustained inflation and its associated higher energy, material and transportation costs.

Effective as of January 1, 2024, spare parts list prices (Normal, Disposable and Exchange) have been increased by five percent (5%). A small number of parts have not changed in price, while a few others have price increases of more than five percent due to the higher cost increases associated with these specific items.

The revised Spare Parts Price List is available as of January 1, 2024 on the Product Support Documentation page located at www.fmcna.com/support.

Fresenius Medical Care values your business and is committed to meeting your needs for quality service, equipment, and products. Should you have any questions, please call our Spare Parts Customer Service Department at 1-800-227-2572.

Sincerely,

Robert Gregory
Product Director – Machines & Spare Parts
