Indications for Use: The Liberty Select cycler is intended for acute and chronic peritoneal dialysis. The stay safe PIN connectors are intended for use with a peritoneal cycler for drainage and infusion of PD solution during peritoneal dialysis exchanges. The stay safe PIN connectors are indicated for acute and chronic peritoneal dialysis.

Caution: Federal (US) law restricts these devices to sale by or on the order of a physician.

Note: Read the Instructions for Use for safe and proper use of this device. For a complete description of hazards, contraindications, side effects and precautions, see full package labeling at www.fmcna.com.
