We asked our customers what they wanted most in a cycler, and here's our answer: the Liberty® Select cycler—a customizable system featuring enhanced treatment options for greater control, comfort, and convenience.
Sleek and portable design

Neutral-colored exterior and ergonomic design.
- Unobtrusive on a nightstand or living room side table
- Optional cart and travel case make it easy to transport
Intuitive interface

Keeps patients on track during setup and treatment.

- Colorful screen with touchscreen buttons
- Easy-to-follow, illustrated, on-screen instructions
- Responsive alerts and step-by-step troubleshooting guidance

Set-Up

6/18/2016  11:29 AM

step 3

Break cones and clamp unused lines.

Insufficient fluid in Heater Bag

**Indications for Use**

- The dry weight may be set between 44 lbs (20 kgs) up to 880 lbs (399 kgs)
Fits a wide range of prescriptions

- Total therapy time
- Number of pauses
- Fill volume range
- Maximum total volume
- Dwell time
- Drain time
- Bag sizes allowed
- Patient weight
- Number of exchanges
- Daytime manual exchange (0 to 4000 mL)
Simple components

User-friendly parts simplify the setup process for patients, care partners, and nurses.

- Color-coded tubing
- Tubing organizer
- Easy-to-load cassette
stay•safe® connectology system

- More than 20 years of proven and reliable use
- Unique design makes it easy for patients to learn how to perform their PD treatments at home
- Patented PIN seals the fluid pathway prior to disconnect, minimizing potential for touch contamination
- Simple disconnect procedure
- Easy to transition from CAPD to APD
NEW FEATURES

Soft alarm system for a restful night

- Series of beeps of increasing volume alert patient when line is blocked
- Gently reminds patient to change their body position
- Stops beeping after the patient line is no longer blocked

Press to hear the progressive series of alarms.

Additional drain options

As its name implies, the Liberty Select cycler offers more “selections” than our previous cycler.

- **STAT drain at the end of treatment**— Allows patient to perform an unplanned drain at the end of treatment, while still connected to the cycler
- **Additional drain exit criteria**— Provides two drain exit criteria settings—70% and 85%—to help minimize alarms and the risk of overfilling
- **Additional planned drain option**— Allows user to add an additional, planned drain after completing the last drain to help remove more fluid from the abdomen; feature can be programmed in advance
Advanced technology to help improve experiences

Our commitment to developing technologically advanced features is just one of the ways we're continuously striving to support you and your patients.

**PD Plus™ Therapy**

- Designed by PD pioneer Dr. Jose Diaz-Buxo in 1996
- Hybrid therapy with an extra exchange that can help to enhance clearance and ultrafiltration without using icodextrin\(^1\)
- Allows for a continuous, around-the-clock PD regimen, which is in accordance with the International Society of Peritoneal Dialysis' recommendations\(^2\)
- Helps optimize PD prescriptions for improved clearance and ultrafiltration
- Requires no additional dialysate solution types, minimizing logistic burden
- Option for anuric and larger body size patients who have difficulty achieving their target Kt/V
Advanced technology to help improve experiences

**IQsystem® data management software**

- Lets you monitor and manage your patient’s data
- Helps you review and update treatment settings and monitor compliance

**With the IQsystem, you can:**

- Tailor your patient’s prescription to fit their individual needs
- Capture valuable data, such as fill, dwell, and drain times for each cycle, and fill/drain alarms
- Review patient-entered information such as weight, blood pressure, and solution data
- Assess patient compliance with their treatment plan
- Filter, format, and view data in a variety of ways to identify treatment trends and progress

## Delivery service

- Liberty Select supplies are delivered to your patient’s door by TruBlu Logistics®, a specialized delivery service
- Drivers are specifically trained to:
  - Deliver patients’ supplies to their storage area
  - Scan and rotate inventory and return any expired, overstocked, or damaged supplies
Read the Instructions for Use for safe and proper use of these devices. For a complete description of hazards, contraindications, side effects, and precautions, see full package labeling at www.fmcna.com.

Indications for Use: The Liberty Select cycler is indicated for acute and chronic peritoneal dialysis. The stay•safe PIN connectors are intended for use with a peritoneal dialysis cycler for drainage and infusion of PD solution during peritoneal dialysis exchanges. The stay•safe PIN connectors are indicated for acute and chronic peritoneal dialysis.

Caution: Federal (US) law restricts these devices to sale by or on the order of a physician.
